***Master Translator*: Commonly Used Terms for Results Statements**

Many organizations use different terms for results statements at different levels. Regardless of which model and terms are used, the project design should still display clear and concise causal logic between statements. The following table compares commonly used terms from different donor agencies and development organizations. This table will help you to translate language into a set of terms preferred by a particular donor.

| | Wider or Long Term Effect | End of the Project Effect | Intermediate Effect | Outputs | Interventions | |
|---|---|---|---|---|---|---|
| **USAID Results Frameworks** | Goal | Strategic Objective | Intermediate Results | (Outputs) | (Activities) | (Inputs) |
| **CIDA** | Overall Goal | Project Purpose | | Results/Outputs | Activities | Inputs |
| **DfID** | Goal | Purpose | | Outputs | Activities | |
| **FAO and UNDP** | Development Objective | Intermediate Goals | | Outputs | Activities | Inputs |
| **GTZ** | Overall Goal | Project Purpose | | Results/Outputs | Activities | Inputs |
| **European Union** | Overall Objective | Project Purpose | | Results | Activities | Inputs |
| **CARE** | Program Goal | Project Final Goal | Intermediate Goals | Outputs | Activities | Inputs |
| **CRS** | Goal | Strategic Objective | Intermediate Results | Outputs | Activities | |
| **Other** | Goal | Purpose | | Outputs | | Inputs |
| **Other** | Impact | Outcome | | Outputs | Activities | |
