QUICK START GUIDE: TEACHERS

CREATE A LEARNING EXPERIENCE

Your Studio will consist of Learning Experiences, and you can make as many as you want. Let's start with your first one.

1. Go to your Studio by clicking on the icon. Then click on Create New Experience.

A screenshot of the MediaBreaker/Studios dashboard. At the top, there's a user profile icon and the text "MediaBreaker TestTeacher/Studio". Below that is a green header bar with the text "LEARNING EXPERIENCES" and a yellow "CREATE A NEW EXPERIENCE" button, which is circled in red. The main area shows a list under the heading "Active" with one item: "MB Test Teacher Studio". There's a blue "ENTER" button and a yellow "CREATE A NEW EXPERIENCE >" button at the bottom.

2. Now you're going to fill in some information about the Learning Experience.

MediaBreaker / Studios A project by The LAMP

Studio > Create/Edit Experience

Create/Edit Experience

A screenshot of the "Create/Edit Experience" form. It has three main sections: "Name*" with a text input field, "Summary*" with a text area, and "Directions/Description*" with a rich text editor. A note at the bottom says "* Required". At the bottom right are "Cancel" and "SAVE" buttons.

Give your Learning Experience a name.

Write a brief description of the Learning Experience to help students identify it when they are in your Studio.

Now you can fill in some more details about what you want your students to do. Use the link button in the formatting bar to link to any outside sources or references. **Make sure to check the box to open a link in a new tab**, or else your students will be directed away from MediaBreaker/Studios.

Click Save to finish or Cancel to start over.

QUICK START GUIDE: TEACHERS

CREATE A LEARNING EXPERIENCE

3. 

Now that you're in your Learning Experience, let's upload some videos. Click Add Media.

4. 

Browse to the video file on your computer you want to add to the Experience.

Type a brief description of the video.

Click Save to finish or Cancel to start over.

- 5.** Your video will upload. Please be patient; larger video files will take longer to upload. When it's complete, you'll see the video in your Learning Experience for students to select. You can continue to upload as many videos as you want.

In your Learning Experience, you (and your students) will see two videos about Critical Commentary and Fair Use. **Please watch them!** They're brief and will be very helpful in creating breaks that are critical and adhere to Fair Use guidelines.

Edit your Learning Experience here.

Watch the breaks your students have created for this Learning Experience by going to the Break Gallery.

NEXT: INVITE STUDENTS TO YOUR STUDIO

MEDIABREAKER / STUDIOS

QUICK START GUIDE: TEACHERS

INVITE STUDENTS TO YOUR STUDIO

1. Go to My Students by clicking on the icon. Then click on Invite a New Student.

MediaBreaker / Studios A project by The LAMP

Studio > Students

Students

View the students registered with your Studio space, view the badges they've earned, watch their work-in-progress, and view the names of other educator studios that your students are registered with. You can add and remove students from your Studio space.

The screenshot shows the 'Students' section of the MediaBreaker / Studios interface. At the top, there's a 'STUDENT LIST' header with a 'Removed Students List' link and an 'INVITE A NEW STUDENT' button, both of which are circled in red. Below this is a table with columns: NAME, DATE ADDED, LAST LOGIN, and ACTIONS. In the ACTIONS column, there's another 'INVITE A NEW STUDENT' button, also circled in red.

- 2.

MediaBreaker / Studios A project by The LAMP

Studio > Students > Invite Students

Students

Send an email inviting your students to join your Studio on MediaBreaker Studios!

The screenshot shows the 'INVITE STUDENTS' form. It has fields for 'Student Name*', 'Email*', and 'Age Verification'. The verification text reads: 'By clicking "Submit", I hereby verify that the student receiving this invitation email is at least fourteen years of age.' There is a checkbox labeled 'I confirm the above' and a note 'Required'. At the bottom right of the form is a yellow 'Invite' button, which is circled in red.

See what students you've already invited here.

Enter your student's name and email address in the fields and check the box verifying that they are at least 14 years old. (Students younger than 14 can still use the tool, but we cannot publish their videos without a guardian's permission.) When complete, click Invite.

- 3.

MediaBreaker / Studios A project by The LAMP

Studio > Students

Students

View the students registered with your Studio space, view the badges they've earned, watch their work-in-progress, and view the names of other educator studios that your students are registered with. You can add and remove students from your Studio space.

The screenshot shows the 'Students' section of the MediaBreaker / Studios interface. At the top, there's a 'STUDENT LIST' header with a 'Removed Students List' link and an 'INVITE A NEW STUDENT' button. Below this is a table with columns: NAME, DATE ADDED, LAST LOGIN, and ACTIONS. A single student entry is shown: 'John Doe' (redacted), '03/24/2016', '03/30/2016', and 'View Profile | Remove'. At the bottom, there's another 'INVITE A NEW STUDENT' button.

As students accept their invitations to your Studio, you'll see their names added here. You can also see the student's profile and remove them from your Studio. There is also an option to view students you've removed, and re-add them to your Studio.

MEDIABREAKER / STUDIOS

QUICK START GUIDE: TEACHERS

MAKE YOUR FIRST BREAK

1. **Get started** by selecting the video you want from the Media Library, then drag it on to the timeline. It will snap to the middle row.
2. **Play the video** by pressing the spacebar on your computer. You can also drag the cursor along the timeline to play a specific part of the video.
3. **To add a caption**, select Add Caption from the Tools library and drag it to the timeline, where it will snap to the top row of the timeline.

Caption options will then show up in your working pane, where you can alter text and set how many seconds you'd like the caption to run. Click Update to finish, then drag the caption along the timeline to where you'd like it to show up in the video.

4. **To add a title**, position the cursor where you want the title to go and click the scissors. Select Add Title from the Tools library and drag it to the where you made the cut in the timeline.

The title will snap to the middle row of the timeline, and title options will show up in your working pane, where you can alter text and set how many seconds you'd like the title to run. Click Update to finish..

5. **To add an audio track**, select the track you want from the Media Library or User Library, then drag it on the timeline to where you want it to play. It will snap to the bottom row of your timeline.
6. **To delete part of a video or an edit you made**, select what you want to remove and click the .
7. **To save your work** and come back to it later, click Save Draft at the top of the page. You can access your drafts in your Studio home.
8. **To submit a finished break**, click Submit/Complete.
